

STAALMEESTER™

PRODUCTIVITY, COST EFFICIENCY & SERVICE TO THE FARMER

Soilmaster 2m³ Feed Mixer

Efficient mixing is the key to good feed production.

The Soilmaster feed mixer is the ultimate solution for producing and cost efficiency when it comes to small scale feed mixing.

The Soilmaster comes with two differentiating fixed knives that adjusts the cutting length of the material to the preferred length.

The mixing auger is equipped with 7 additional cutting blades that makes for a faster and more effective mixing result. Also equipped with a hydraulic opening door that can be converted to use manually if needed.

There are a few options available: electric or tractor mounted with or without wheels.

Small but mighty

Volume	2m ³
Number of spirals	1
Number of blades	7
Unloading from Right side	Std.
Weight	400 kg
Power required	30 ph
Hydraulic pressure	Tractor
Thickness of spiral	8 mm
