Mowers

LS125R	1.25	4	B4	N	247	1654	1416	15/65
--------	------	---	----	---	-----	------	------	-------

Locust implements are:

- Cost effective implements designed to work with older or lower powered tractors
- Easy-to-use: a few clear instructions and safety tips and you can get to work
- Ideal for the smallholder, emerging farmer and price-conscious buyer

About us

Falcon Agricultural Equipment (Pty) Ltd is the largest manufacturer of tractor-mounted rotary cutters in Africa. The company manufactures the Falcon and Locust ranges of implements. It also distributes the Amazone and Votex ranges of imported products.

Excellent customer service is an integral part of the Falcon promise, and the ongoing innovation at Falcon is based on our assessment of customers' changing requirements.
